# King Cobra® Series

## Heated Carpet Extractors

The King Cobra Series of portable heated carpet extractors is truly the King of the U.S. Products portable carpet extractor line. Available in variable 500 psi, 300 psi, 300/75 psi & 150 psi. These large capacity 16 gallon hot water extractors offer longer run times and reduced labor costs when compared to other traditional extractors.

The in-line heater with solid state circuitry for heat management delivers up to 212 °F heated solution to the wand tip for increased cleaning effectiveness. Exclusive, patent pending, built-in, 25' live hose reel provides easy hose management and can be removed for loading. Coupled with the wand holder, chemical storage tray and large transport wheels, this allows easy one person transport. Solution fill is conveniently located low to reduce lifting, and a large drain hose allows complete recovery tank draining.

Contact U.S. Products today for more information on the King Cobra Series.

Heated Carpet Extractors

## Heated Carpet Extractors

### Exclusive Features From U.S. Products

- **Hose Reel:** Patent pending, built-in 25' vacuum and solution hose reel for easy hose management.
- **Heater Element:** In-line, after the pump for longer life and instant heat up to 212 °F at the wand tip, lifetime warranty.
- **Smart Circuit Locator:** Identifies separate lines to eliminate blown circuits.
- **Low Moisture System:** Less water combined with higher heat means faster drying, less chance of shrinkage or wicking from the pad.
- **Tanks & Bodies:** Lightweight, rotationally molded with lifetime warranty against cracks, leaks and dents.
- **Cord Wrap:** Accommodates up to 50 feet of 12/3 electrical cord.
- **Patented Vacuum Manifold:** Increases efficiency when using two vacuum motors in series. (King Cobra 150)
- **Solid-State Circuitry:** Senses temperature change in heat exchanger within 1 degree F for more consistent heat at the tip.
- **Low Solution Fill:** Solution fill area located low for easy bucket fill with less back stress.

### Standard Features on all King Cobras

- Hose reel
- Dimensions: 39"H x 21"W x 36"L
- Smart circuit locator
- Solid-state circuitry
- Low moisture design
- 16 gallon solution tank
- 14 gallon recovery tank
- King Cobra 500 available with optional auto-fill/auto dump
- Chemical tray
- Two handles for easy maneuverability and loading
- Wand caddy for easy transport

- Dump hose, 22" height
- 10" non-marking wheels
- Convenient low solution filling area for easy filling
- 25' high pressure solution line and crushproof vacuum hose
- Cords: 2 each detachable 12/3 gauge, hospital grade plugs
- Gold rated by CRI Seal of Approval\*\*

**\*\*All 300-500 psi machines have been independently tested and granted the Gold CRI Seal of Approval.**
