

The Patriot

Air Scrubber/Negative Air Machine

Introducing the most innovative answer to your remediation problems.

The Patriot is the only rotationally molded air scrubber/negative air machine available. The Poly body minimizes damage to furniture and doorways when transporting and is so durable it has a lifetime body warranty. Its dolly design makes one-person loading and transport easy. Two speed operation, 1400/2200 CFM, offers versatility for large or small jobs, and it can be used in either the vertical or horizontal position. Multiple filter design and no tools are required for filter replacement.

To capture particulates, mold, fungal spores, gasses and odors, the Patriot is your answer. Contact U.S. Products today for more information on The Patriot Air Scrubber.

The Patriot

Air Scrubber/Negative Air Machine

Features:

- Hepa Filter (high capacity) 24 x 24
- 1" Polyester pre-filter 24 x 24
- Optional 2" pleated filter 24 x 24
- Optional 2" carbon filter 24 x 24
- Blower, two speed 1400/2200 CFM
- Blower Motor - 1 3/4 hp, 14 amps peak
- Weight - 130 lbs.
- Body - Rotationally molded
- Filter warning - indicator light
- Filter compartment - easy access
- Control panel
- Operation - Horizontal or vertical
- Discharge - Side mounted
- Loading - Friction rails
- Cart - large 8" transport wheels and dolly design

Benefits:

- DOP Certified 99.97 for increased CFM and longer life
- Removes largest particles and debris
- Removes medium sized particles prolonging HEPA life
- Collects and removes airborne odors and chemicals
- Increased versatility, adjusts to room size
- Produces 15% greater air flow than the competition
- Low amp draw
- Easy to maneuver
- Greater durability, improved appearance, lifetime warranty
- Positively shows when HEPA filter needs changing
- Only two latches to release exposing all filters. No tools required. Easy to change and clean filters.
- Protected switches for easy access, durability and long life
- Adds versatility for large or small confined areas. Allows improved airflow in either horizontal or vertical position
- Gives greater efficiencies with fewer bends in ducting
- Allows easy one person truck or van loading, prolongs machine life and reduces labor
- Ease of transporting and stair climbing

Specifications

Hepa Filter	DOP Certified 99.97
Blower	Two speed 1400/2200 CFM
Blower Motor	1 3/4 hp, 14 amp peak
Weight	130 lbs
Dimensions	51L x 15 1/4 W x 19 1/2 H inches
Warranty	1 year limited - parts
Warranty on Body	lifetime
Transport	8" transport wheel with dolly design
Optional	Filter duct kit (includes: 12" x 18" strap rings, 500' 20" diameter [fits 12" outlet] lay flat duct, 25' of 18" strap duct, 2 each 2" pleated pre-filter, 1 each 2" carbon filter.)
