

Triple Play Spotter

Portable Spot Removal Tool

Discover a powerful idea in spot removal—the Triple Play from U.S. Products. The Triple Play has three tanks: one for solution, one for rinse and one for recovery. So, now, instead of emptying your solution in order to rinse, you simply flip a switch. Chemical residues which cause resoiling can be removed instantly. The large lift off recovery tank also lets you extract more spots before emptying. And talk about power. The Triple Play's vacuum motor is strong enough to extract spots using an optional light weight floor wand. It's also compact and easy to maneuver. In fact, it comes standard with 5-inch wheels and a foldaway handle so you don't have to go buy a cart. Spot the difference for yourself.

Triple Play Spotter

Portable Spot Removal Tool

Features:

- Three separate tanks for solution, rinse and recovery
- Tangential discharge vacuum motor
- Large-capacity recovery tank is removable with handle
- Durable stainless steel & clear resin hand tool (optional lightweight floor wand available)
- Folding cart handle with cord wrap
- Standard 5-inch wheels
- Lightweight and compact

Benefits:

- Removes chemical residue that causes resoiling
- No need to empty cleaning solution just to rinse
- Increased vacuum motor life
- Allows spot removal using a lightweight floor wand
- Powerful suction accelerates drying times
- Large capacity extends extraction time
- Lift-out tank makes disposal and cleaning easy
- Improved reliability reduces costly downtime
- Power cord wraps on handle for transport
- Easy to maneuver
- No need to purchase a cart
- Compact and lightweight enough for easy portability

Specifications:

Solution Tank	1 gallon - 3.785 liters
Rinse Tank	1 gallon - 3.785 liters
Recovery Tank	2.5 gallons - 9.5 liters
Pump	55 PSI
Tangential Vacuum	90-inch lift/97 CFM - 228.6 cm lift
